# OPC SETTING UP SPECIAL FUND FOR JOURNALISM ACTIVITIES

The OPC is taking steps to broaden its professional activities by setting up a special fund, - to be known as the Overseas Press Club Foundation, President John Luter has announced.

A major purpose of the Foundation is to provide a means by which money can be accepted on a tax-deductible basis for educational programs and other special projects of a strictly professional

As one early project, Luter said, the Club is considering traveling fellowships overseas for American newsmen. One tentative offer of financing for such a fellowship has already been received.

## Dateline '61 Theme Set; Dinner Program Underway

The opportunities and responsibilities of communications in the '60s is the theme of the OPC's Dateline, 1961 which will be distributed at the Annual Awards Dinner April 14 in the Waldorf-Astoria

An outstanding group of specialists will evaluate the role of communications in the world today. They will stress the (Continued on page 3)

The OPC Committee for Special Study, appointed several months ago with Dickson Hartwell as chairman, is screening other suggestions, and Chairman Hartwell has drawn up a report outlining possible areas of activity.

These include meetings of newsmen on professional problems, an extension of the OPC program of seminars for college and high school editors, an expanded program of meetings with groups of visiting foreign newsmen, annual publication of OPC award-winning reportage, and assistance in providing speakers and data on overseas reporting to major schools of journalism. Suggestions from members are invited.

Generally, Luter said, the Club's aim is to encourage further interest in the coverage and publication of overseas news, and to assist wherever possible as provided for in the preamble to the OPC Constitution - in maintaining the high standards of American overseas reporting.

Creation of the Foundation, proposed by Luter, was approved in principle by the Board of Governors several months ago. A further report has since been made by the Committee for Special Study, and Club Attorney Frank Wachsmith is now preparing the necessary legal papers for filing with the Internal Revenue Department, requesting tax exemption. These papers will be submitted to the Board for approval.

The proposed new Foundation, Luter emphasized, will not conflict or compete in any way with the Correspondents' Fund, which is limited by law to charitable purposes. The Foundation will cover an area in which the Correspondents' Fund cannot operate, and will simply receive and administer funds for specific educational and professional projects.

The Foundation, Luter said, will be required by law to keep separate books. But it will be linked closely to the OPC's programming activities, and trustees will be elected by the OPC Board of Governors. Present plans call for trustees to serve three year terms, with one-third of the group being chosen by the Board each year.

"A BIENTOT IN VICHY" was the toast of the evening at last Tuesday's Regional Dinner. Shown (l. to r.) are: Michel Pobers of the Vichy Tourist Bureau (and former OPCer); Club prexy John Luter; Pierre Coulon, Mayor of Vichy; Myra Waldo, dinner coordinator; Rene Jeux, president, Elysee Palace in Vichy; and Larry Blochman, dinner committee co-chairman. (See page 3)

Remington Rand—the business that serves all business — can play on the newsman's team, too! More than 600 branches in just about every country of the free world, plus a continually growing investment in overseas plants and manufacturing facilities, insure an intimate knowledge of each country and its personalities.

Whether it's just relatively simple information you want, or help in digging out hidden facts, our local representatives are ready and willing to lend a hand. Call or wire Arch Hancock, Director, Public Information at New York Headquarters. He'll point you in the right direction.

# CONTINUED COOPERATION PLEDGED WEST BY BRANDT

West Germany's Social Democrat Party has no criticism of Chancellor Konrad Adenauer's present foreign policy, Willy Brandt, mayor of West Berlin, told a large group of OPCers and representatives of New York's working press.

Brandt, Adenauer's principle opponent for the West German elections in September said that, "whatever the outcome, the German Government will continue to work with the Western communities for economic cooperation."

Despite a barrage of questions regarding his program, Brandt declined to "open" his campaign during his OPC-sponsored press conference at the Waldorf-Astoria, March 16 ("the German people might not like that"). He would only say that the election's main influence would be on domestic issues only.

The Mayor said he was "encouraged" with the results of his interview with President Kennedy but would not discuss details beyond the White House communique. He added that he had had no doubts about U.S. policy in Germany but that it was good to be reassured.

Asked how much Western Germany should contribute to Western Defense, Brandt said that the question was much too complicated to discuss in dollars and cents. In addition to other considerations, he continued, German internal obligations would have to be examined. "West Germany is not the rich country that many, including prominent West Germans, would suggest it to be," he said.

The upcoming Eichmann trial will undoubtedly present problems for West Germany, Brandt said, but he "does not believe that the New Germany should be identified with the Nazi regime." He pointed to the progress made in educating German youth so far but said it may take another generation before the Nazi problem could be erased completely.

#### 'VICHY-SOIR' SUCCES

A capacity overflow crowd waded its way happily through a "low cholesterol" menu during the Vichy Night at the Club on March 21.

The gourmet repast, prepared by Jean Gueneau, master chef of Vichy, ably assisted by OPC's own George Ovide, ran the gamut of Gallic delicacies — ranging from Brochet au beurre blanc Elysee Palace to a distinctly high calorie (but mighty rewarding) Cito Vichyssois, all intertwined with special wines, cognac and liqueurs. Most ingredients of the Epicurean event were flown in from France.

Guests of honor at the groaning board included Pierre Coulon, Mayor of Vichy, and Rene Jeux, president of the Elysee Palace in Vichy, who were flown here, with chef Gueneau, by Air France. Both guests offered brief, charming "a bientot in Vichy" speeches.

Also present were Andre Alphand, Myron Clements and Rene Bardy, director general, PR director and executive general, respectively, of the French government Tourist Office; Pierre Mulot, assistant PR director, Air France; Jean Claude Pettit of the Commercial Counselor's Office, French Embassy; and Marcel Pobers, representing the Compagnie Fermiere de Vichy.

The array of door prizes led off with a full week (all expense-paid vacation) in Vichy, won by *Mary Buchanan*, editor of *Parent's* magazine. Also included were French perfumes and cheeses.

Coordinator for the dinner was Myra Valdo, co-chairman of the Regional Dinners Committee.

#### MICHENER BOOK NIGHT

Author James A. Michener will discuss his new book "Report of the County Chairman" at the Club on April 11.

The new work, based on Michener's experiences while campaigning for President Kennedy

## OPC Members To Report On World's Fair Trips

Five OPCers who between them have visited more than 30 countries as emissaries of the 1964 New York World's Fair will report on their observations at an Open House Tuesday evening, March 28.

Program includes John Luter (back from a trip to Iraq, Lebanon and Jordan), William Laurence and Ben Grauer (who visited the Philippines, India, Thailand and other parts of Asia), Louis P. Lochner (who presented the official invitation to the West German government) and Bill Berns (whose trips covered the Mideast, India, Nepal, Pakistan, Israel and South America).

Berns, who is also vice president in charge of communications for the Fair, will open the evening, after which other members will report.

Special feature: First preview of official color film on World's Fair plans, narrated by H. V. Kaltenborn.

#### DATELINE (Cont'd from page 1)

dimensions of courage and truth in the field, as well as the coming "revolution of information."

In photographs and artists' sketches, *Dateline*, 1961 will present a tour of the new World Press Center, how OPC members work around the world, and attitudes toward "penetrating the human mind."

The OPC year in review, a picture history of the Club, and the OPC's Annual Awards are among the other features.

A first-rate entertainment program is being lined up for the Awards Dinner, according to dinner committee chairman Ben Grauer. Details of the program are to be announced within the next fortnight.

Following presentation of the Awards, Ben Cutler's orchestra will provide smooth dance music from 9:00 p.m. to 1:00 a.m.

An exotic menu, featuring filet mignon Bordelaise as the piece de resistance, will be provided.

Some 1,000 members and guests are expected to turn out for the annual banquet. Members this week were asked to supply Janet Longyear of the dinner committee with names of non-member friends to whom invitations should be sent. (MU 6-8398 or MU 6-8399).

Ticket prices this year: \$15 each for a member and one guest. Non-members and additional guests, \$35 each.

# Yugoslav Press Laws Described As Mild For Soviet Bloc

by Joe Peters

BELGRADE

Yugoslavia, although a communist country, isn't quite as rigid in the application of its press regulations as, for instance, the USSR and Red China.

Of course, the Belgrade government is jealous of its basic policy and, though not stated in so many words in its press law, no paper steps out of line either editorially or reportorially. If anything goes wrong, there is a "responsible" editor on every paper who then gets it in the neck in varying degrees: by reprimand, fine, imprisonment, or loss of job. The most common punishment in Yugoslavia is a reprimand or a fine.

Freedom of the Press

In spite of this handicap, the Yugoslav newspapers, especially the Belgrade Borba and Politika have built up staffs of excellent foreign correspondents that could be the envy of every metropolitan daily in Europe, if not the world. Their reports are almost always published in full and are seldom edited. Although they, of course, have to "conform", their reports are generally fair and impartial. I have followed, for instance, the reports of the Borba, Politika and Tanjug from New York and Washington. With few rare exceptions, they were most accurate and fair.

At the same time, there is no censorship whatever on foreign correspondents stationed in Yugoslavia. They can send anything by cable, radio, telephone, mail or otherwise without any red tape or hindrance. However, repercussions may come after the correspondent's piece has been published in the foreign press. These repercussions may take several forms. The most common is a friendly remark by a Yugoslav official of being a bad boy. Then there is a call-down by the foreign office with a bit of ostracism (as it happened recently to the Peking correspondent and some others from the Soviet bloc who ostensively needle the Yugoslavs on many occasions); at times particular issues of a publication may be banned that carried some "offensive" items (this happened to Newsweek twice last year); and, lastly, there may be an expulsion of a correspondent (this hasn't happened to one for some time, though entry visas have been refused to a few).

But let's see what the Yugoslav press law says about some aspects of freedom of the press. I'll confine myself to only a few comments, leaving the reader to draw his own conclusions:

— "With the aim of realizing the democratic rights of citizens, the strengthening of the role of public opinion in social life, and for the fullest information of events and manifestations in all spheres of life in this country and abroad,

the freedom of the press and of other media of information is guaranteed."

——"The citizens of Yugoslavia, regardless of their differences in nationality, race, language and religion, have the right to express and publish their opinions through information media..." (Note the omission of differences of political opinion.)

— "Censorship of the press and of other information media does not exist, except in case of mobilization or a state

of war."

-- "The exchange of information between Yugoslavia and other countries is free."

"Such exchange can be limited in instances stated by law, that is, for the protection of the independence, security and the free development of the country; of the respect for the freedom and the rights of man, of the public order and morale, as well as of the development of international cooperation in the spirit of the Charter of the United Nations."

"The publication of information detrimental to the honor, reputation and the rights of citizens, or to the interests of the social community, represents abuse of the freedom of information...."

-- "....all sources of information are accessible to (all) engaged in the publication and dissemination of information.

"All government agencies will be instructed as to the method of handing out such information within their jurisdiction." (Did Washington copy Belgrade or vice versa?)

—— "Newspapermen and others engaged in the business of information must in their activities adhere to the principle of professional ethics and social responsibility, and must act in the spirit of honoring the truth, human rights and the development of the peaceful cooperation among nations."

#### Foreign News Bureaus & correspondents

-- "....the rights and obligations of foreign news agencies, correspondents and information establishments, as well as the conditions of their activities within Yugoslavia, are stated by this law.

"Using the privileges granted (them) by this law, they are obliged to adhere in all instances to the Yugoslav law.

"The Secretariat of Information of the Federal Executive Council\* (and all information offices in the Yugoslav republics) are obliged to facilitate...the obtaining of official and other information (the correspondents require)...."

"A foreign news bureau exists if a foreign news agency or publication has in Yugoslavia at least two regular cor-

respondents and at least three other regular employees." (This includes all those charged with gathering of news and disseminating information, including photographers, radio-TV, movie news, etc.)

—— ''....regular foreign correspondents are considered all correspondents of foreign news agencies, publications, etc., whether they are foreign or Yugoslav citizens, if they are assigned to work in Yugoslavia for more than two months.

Requirements

"All foreign bureaus and correspondents and their regular employees must be registered with the Secretariat of Information."

(The home office must request for registration, the correspondent's biographical data, and two photographs. The correspondent then receives an identification card which, actually, opens most doors for him in Yugoslavia and also gives him a 75% discount on railroad fares 12 times a year!! Correspondents with headquarters in other European cities who frequently visit the country can also be registered. Visiting correspondents, though not registered, are also free to move around and gathernews and, in general, they are not discriminated against. They also must conform with the press law.)

"When registered, the correspondent obtains the right to gather news in Yugo-slavia for a stated period." (At present for two years, which can be extended for another two.)

"The registration may be cancelled if the registrant breaks the press law or other regulations about information activities." — (See Paragraph 52, cited below!) — "Also if the correspondent is sentenced to prison for more than six months...."

"There is no redress in case of refusal or cancellation of a registration by the Secretariat of Information."

#### Paragraph 52

— And here is Paragraph 52 of the Press Law which applies not only to "printed matter" as it states, but also to all newsmen, foreign correspondents and writers:

"Prohibited is all printed matter which:

(1) Criminally acts against the peo-

Editor, Bulletin (telegram)

The Overseas Press Club, which has so often honored CBS News, should be especially aware of the high standards of this organization and its correspondents. Therefore chagrined to read in of all places, the OPC Bulletin /March 18/that CBS staged a news story in Mexico City. This is absolutely untrue and is most unfair to our correspondents on the scene and to CBS News.

Richard S. Salant President, CBS News

Mr. John Luter, President:

The report by Peter Weaver in the OPC Bulletin (March 18 issue) that CBS staged part of its coverage of the pro-Castro convention in Mexico City is completely false. It is a double example of the worst kind of irresponsible journalism in that the reporter made a serious allegation without bothing to get his facts straight and the OPC Bulletin editorial staff did not check out the story before publishing it.

The fact is that CBS News personnel did not resourcefully, or otherwise, recruit a bunch of grinning, or even scowling, Mexican boys to march up and down in front of CBS News cameras shouting "Cuba si, Yanqui no!" Weaver apparently based his story on an incident that occurred while CBS News correspondent Charles Kuralt was trying to do a filmed narration at the Monument to Independence. A group of Mexican youths started harassing him and the filming was stopped. The film described by Weaver was never seen on any CBS News programs. It does not exist and never did.

CBS News staffers are professional journalists. As such, they do not stage or fake stories. The *OPC Bulletin* story has been picked up by the general press and has seriously damaged the reputation of CBS News.

We hope you will look into this matter, and finding the facts to be as stated herein, the *OPC Bulletin* will publish the retraction to which CBS News is certainly entitled.

Sale of Newsweek to Post caused quite a stir here.

Prior to inauguration there was much talk here that Red China would gain US recognition and be admitted to UN after new administration took over. The Chinese Communists have demanded withdrawal of Amer troops from Formosa as price of admission for 34 USnewsmen.

At his press conf, President Kennedy said he'd like to see a "lessening of tension" but declared emphatically that "we are not prepared to surrender to achieve such a relaxation."

News organizations accredited by State Dept to maintain at least one fulltime Amer corr for minimum of six months in Communist China are:

AmBcastingCo., AmUnivFieldService, wl-AP, ChiDlyNews, ChiTrib, ChiSciMon, CBS, Copley, CowlesPubs, DenverPost, Encyclopedia Britannica, Fairchild Pubs, LATimes, MGrawHill, MBS, NBC, Nat-Geographic, NEA, NYHerTrib, NYTimes, NANA, RdrsDigest, St. Newsweek, LouisPostDispatch, SatEvePost, ScrippsHoward, BaltSun, Time, UPI, US-WallStreetJournal, News&WorldReport, WashPost and Westinghouse BcastingCo.

JFK admitted to a press conf that newsmen sometimes subject him "to some abuse, but not to any lack of respect." His statement was in answer to reporter's query about mail the President is receiving as a result of televised press confabs. The chief executive concluded his remarks with "So I think, along with the old saying about 'don't take down the fence until you know why it was put up,' I would say we should stay with what we have now.'

Press Secy Salinger met with Moss House Committee on Govt Info for 31/2 hours behind closed doors on freedom of information. Rep. John Moss, D. Calif, said at end of session he would prepare a detailed list of instances in which info has been withheld by Govt. in past six yrs.

#### BEATING THE MARK

More frequent vacations for newsmen might result in more newsbeats.

In support of this thesis is Exhibit A: Hans Neuerbourg of the APs Frankfurt bureau.

Hans was refused foreign currency as he was about to start on vacation. Worried, he asked questions. Then he sped back to the office.

A few quick checks confirmed that the mark had been revalued. The AP came out with a bulletin, giving the agency a clean break.

Neuerbourg and news editor Jack Bausman, well ahead, continued to pump out background and well-rounded stories.

Wall Street may be said to be sitting for its portrait at the OPC. For on the walls of the, bar and the stairway gallery is a photographic exhibit on the Wall Street area which conveys the street's special atmosphere and its meaning.

The photographs are drawn from a new book which contains more than 300 pictures on the historic financial district. The book is 'Money, Money, Money: Wall Street in Words and Pictures' by RALPH G. MARTIN and MORTON D. STONE, published by Rand McNally & Co.
